Help for FQHCs and CHCs

We know you are different. You chose to serve the underserved in the communities that need it the most. You are trying to make lives better. eMedApps wants to help.

We know Federally Qualified Health Centers (FQHCs) and Community Health Centers (CHCs) require continual access to health IT systems for scheduling, patient data access, and documentation. And we know that there are specific requirements that you have to meet that are different from other clinics. eMedApps delivers the products and services your clinic needs to keep your clinicians and patients happy and to meet the regulatory requirements that keeps management happy.

Optimizing NextGen FQHC/CHCs

eMedApps is one of the longest standing providers of products and services to compliment the NextGen EHR. Our eMedApps experts specialize in facilitating upgrades, configuring the system to meet specific regulatory requirements, and using our custom built tools to bring additional optimization and efficiency to the users of the system. Contact us now and we can help ensure your system is running at peak efficiency.

> **With in-depth knowledge of FQHCs specialties: primary care, pediatrics, nutrition, behavioral health, dental, OB/GYN, family planning, and vision eMedApps can make your EHR smarter, faster, and easier to use.**

Regulatory Programs, Workflows, Mergers

FQHC/CHCs are constantly under pressure to cut costs and improve ROI. Industry regulations including Medicaid PI, HEDIS, HIPAA, and PCMH can add complexity requiring new workflows, hardware, software, and infrastructure.   Add cycles of mergers and acquisitions and it's no wonder FQHC/CHCs are evaluating technology roadmaps that address the future, integration of systems, archiving data and workflows that reduce clicks, save time AND provide better comprehensive patient care

eMedApps has the experience and tools from working with FQHC's for almost 20 years to help your clinic stay ahead of the game by taking advantage of the technology that is here today while preparing for the things to come.

Efficient Clinical Data Management for FQHCs & CHCs
Our eMedApps products complement our NextGen Professional Services and are designed to make your NextGen systems Smarter, Faster and Easier.

Smart Visit
Clinician's tool for pre-visit/huddle planning, quick navigation and smart view of what needs to be completed.

EHR Operations Dashboard
Find things that have been overlooked, ensure visits are complete and verify that systems are being used properly.

CareFinity
EHR Downtime solution to keep your clinic running even if the EHR is not available

CareFinity Archive
View archived records from systems no longer used. Great for mergers and when changing EHRs

CareFinity Live Archive
Remove chart data from your live EHR system to save space and increase speed. View the archived data through the CareFinity application. Return archived data to NextGen upon demand.
